|---|---|---|---|
| SFP 2.5G SFP UPLINK | 5X GIGABIT ETHERNET + BONDING SUPPORT | POE-IN & POE-OUT | USB 3 PORT FOR STORAGE & FILE SHARING |
| 2 DUAL-CORE ARM CPU + 512 MB RAM | ROUTEROS V7 INSIDE | WALL-MOUNTABLE DESIGN | FLEXIBLE POWERING (12–57 V) |

Need a wired router that won't slow you down or drain your budget?
The new **hEX S** is a compact, truly budget-friendly device that does a little bit of everything — and does it fast. Whether you're building a smart home, running a local lab, or just want a clean, powerful wired setup, this is your new Ethernet essential.

And yes — it costs even less than the previous generation, the original hEX S bestseller from 2018!

With 5× Gigabit Ethernet ports (including PoE-in on port #1 and PoE-out on port #5), plus a 2.5 Gigabit SFP cage, this compact router can adapt to many roles. And unlike most ISP boxes, you can assign any port as WAN, LAN, or bridge — full flexibility right out of the box.
That's just the beginning. RouterOS v7 gives you advanced routing, VLANs, bonding, traffic shaping, and more — so you can build the wired network you've always wanted.

### Example 1

## Max Your Internet Plan

Got a 2 Gbps fiber plan? Use the 2.5G SFP port to deliver that speed to your power-hungry devices — from self-hosted movie servers to media workstations or security camera NVRs. Perfect for homes, small offices, and media studios.

### Example 2

## Local Speed for Creators

Connect your PC over 2.5G, then bond two 1G ports to your NAS.
Enjoy ultra-fast file transfers, smooth backups, and zero bottlenecks — ideal for creators, editors, and researchers who work with large files.
