Ubiquiti Memory Surcharge Notice

Effective: April 24, 2026

Dear Partner,

As you may know, ongoing volatility in the global memory and storage markets has significantly increased the cost of our hardware components. We have elected to bear a portion of these increased costs to relieve the burden on our partners and ensure consistent product availability.

The Memory Surcharge will be applied to your level pricing. UI is adding these surcharges on their public store as well.

We hope the foregoing alleviates the impact of these market shifts and demonstrates our continued commitment to providing you with industry-leading products at competitive prices. We appreciate your understanding and continued trust.

Sincerely,
The Streakwave Wireless Team

Affected Products & Surcharge Amounts

Note: This pricing table is current as of April 24, 2026.

Category	CPN	MSRP	Memory Surcharge
airFiber	AF-5XHD	\$429.00	\$25.00
